INTRODUCTION

Thank you for purchasing this Nauticam product.

Before using the product, please read this manual thoroughly to familiarize yourself with full scope of functions on the product as well as ensuring that you will use the product correctly.

PACKAGE CONTENTS

Make sure that you have all the included items listed below before using this product. If some items are missing or damaged, contact your local Nauticam dealer.

NA-Z5II

(2 x Handles with Mounting Balls, 1 x Housing Cap,
2 x Optical Fiber Mount Caps, 2 x Stainless Steel Handle Brackets)

Padded Travel Case

Allen key set

Lubricant

Panasonic CR2032 Battery

(pre-installed for Moisture Alarm)

Spare Main O-ring
#90137

After purchase, we suggest that you reuse all packaging materials for future travelling.

O-ring Remover

IMPORTANT INSTRUCTIONS

1

Water-tight test of the housing (without camera inside) before usage is recommended as well as any O-ring renewal and port change.

2

Do not seal the housing when travelling by air as this may lead to a pressure difference between the atmosphere and inside the housing.

3

Only the accessories specified by Nauticam must be used. Third-party accessories may result in malfunctions or damage to the product.

4

Use only Nauticam lubricant on silicone rubber O-ring.

5

Do not stretch any O-rings excessively. Only remove it using Nauticam O-ring remover.

6

Discontinue use immediately when there is a sign of leakage.

7

Do not attempt to remove parts of the housing yourself. Repairs must be done at authorized service centers only.

8

The housing should be positioned on the a stable and safe surface on land.

9

Do not expose the housing in direct sunlight for a prolonged period.

10

Do not open the housing in wet or sandy environment. Protect the housing from moisture and debris in order to prevent malfunction or leakage.

11

Prevent any sand or dust or water penetration inside the housing. Be extra careful when changing lens and inserting or removing the camera.

12

This product is not intended for use by children, or persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they are supervised and/or given instruction by a responsible person concerning use of the product to ensure that they can use it safely.

HOUSING MOUNT

Housing mount		Compatible accessories	
1	1/4" -20 mounting threads	17961	Swivel and tilt adjustable monitor mount system <i>* Compatible with NA-Z5II from SN A665554 onwards</i>
2	M16 Accessory port	25625 25013	M16 Vacuum Valve II (Optional) M14 Nikonos 5-pin bulkhead with hotshoe connection — <i>Electrical triggering</i>
3	M10 Accessory port	25221 25224	M10 Strobe mounting ball M10 Strobe mounting ball with hole
4	M24 Accessory port	25033 26326 25076 25047 25082	Standard HDMI bulkhead with M16 thread M24-M16 Adaptor for use with 26325 HDMI (D-D) cable in 200mm length HDMI (D-D) cable in 800mm length HDMI 1.4 cable for Ninja V housing in 0.75m length — <i>HDMI 1.4</i>
		<i>* HDMI1.4 cable can be installed using M24 or M16 accessory port</i>	
5	1/4" -20 mounting threads	17954 17960	Universal tripod plate Universal quadra-pod plate
6	M5 Accessory ports	25228	M5 Strobe mounting ball
7	M5 Threaded holes	25218	Mounting ball set for tripod legs

OPENING THE HOUSING

* drawings as illustrations only

1

depress housing unlock button

2

turn housing lock latch
anti-clockwise to open the
housing

3

flip open the back housing
when lock latch is aligned to
'open' position

CLOSING THE HOUSING

* drawings as illustrations only

1

before closing the housing, clean and lubricate the main O-ring

make sure nothing is caught between front and back housing and that they are fully aligned before locking

2

insert the housing shaft into the shaft hole and then rotate the lock latch clockwise until you hear and feel it click into place

3

housing locked in place securely

PREPARATION FOR USE

* drawings as illustrations only

Installing the Camera - housing tray attachment

1

unlock camera tray lever and remove the tray from the housing

2

attach the camera tray by tightening the tray screw into the tripod socket of the camera

place the actuator on the camera tray in place and make sure it is engaged with the camera

3

** lift up the Mode dial and make sure lever control on housing are aligned with camera controls before installing the camera into housing*
** pull out the zoom/focus knob if installing the camera with lens and gear attached*

slide the camera tray back into the housing along the tray rail

4

lock camera tray

** place the zoom/focus knob in place and make sure it is engaged with lens gear*

PREPARATION FOR USE

* drawings as illustrations only

Port Mounting

1

depress safety button and rotate anti-clockwise

2

lubricant the port O-ring before mounting

align index mark

push port assembly straight in

3

rotate locking lever clockwise to lock

 *Do not operate the red lever with force, make sure the port is aligned correctly and pushed in fully and securely*

PREPARATION FOR USE

* drawings as illustrations only

Coating housing O-ring

1
remove the main O-ring using an O-ring remover

2
clean the O-ring groove with a cloth and ensure
that it is free from salt or other foreign materials

3
lightly coat it with provided lubricant

4
return the main O-ring by slowly pressing from
one corner to the whole perimeter

PREPARATION FOR USE

* drawings as illustrations only

Setting up moisture alarm

1

remove battery
insulation film

2

press the battery down until it
click into place

3

switch on the alarm
- the moisture alarm
window will flash in
BLUE when it is working
correctly

4

test the alarm
- connect the wires with a
dampened cotton bud; the
alarm will give a repeating
'beep' and the moisture alarm
window will flash **RED**

* please contact our authorized service centers if testing fails
* please refer to page 16 for complete vacuum system guidance

PREPARATION FOR USE

* drawings as illustrations only

Changing lens/port without opening the housing

1

If using with vacuum valve :

remove the cap from the vacuum valve and press the red button to release pressure before unlocking port lock

If using without vacuum valve, please follow from step 2

2

unlock port lock and remove port assembly

3

press the blue button to reset vacuum alarm before replacing port

4

replace port assembly then lock port lock

reset vacuum valve system using hand pump and close the cap after

* please refer to page 16 on complete vacuum system guidance

PREPARATION FOR USE

ISO & +/- value adjustments - Release button to use dial

Please follow the below settings for easy adjustments of ISO & +/- value (without removing hands from handles) while using the housing :

In the Custom Settings menu under **f6/f7 (Release button to use dial)**, Select **[ON]**.

This allows adjustments that are normally made by holding a button and rotating a command dial to be made by rotating the command dial after the button is released. This ends when the button is pressed again, the shutter-release button is pressed halfway, or the standby timer expires.

OPTIONAL ACCESSORIES

1

- remove the plug of M16 accessory port from the housing
- remove the cap from the vacuum valve
- slightly lubricate the o-ring and make sure the o-ring is in place
- then tighten the vacuum valve to the housing with the tool provided

2

- connect hand pump to the valve and pump several times until it reaches the target vacuum level
- close vacuum valve cap

Moisture alarm window colour indication :

Steady Blue		device is turned on
Flashing Blue		standby mode, ready for pumping
Steady Green		target vacuum level is reached
Flashing Yellow		vacuum level is dropping
Flashing Red		vacuum is totally lost, circuit stalled until device is switched off
Alternating Blue and Red		vacuum is totally lost, circuit stalled until device is switched off
Steady Red		out of battery

** It is recommended to leave the housing for at least 20mins to ensure it is sealed. If the LED light changes from steady green light to rapidly flashing yellow light, that means there is a leakage. Please check every O-ring and then conduct the vacuum test again.*

** please contact our authorized service centers if testing fails*

OPTIONAL ACCESSORIES

* drawings as illustrations only

Installing Surface USB-PD Power Bank

1

unscrew the M24 accessory port cap from the camera housing and screw the M24-M16 adaptor into the housing port

2

plug the USB-C Bulkhead into the accessory port, gently push the connection head into the accessory port until it cannot go further then tighten it by turning the locking nut

3

plug the cable into the USB Type-C jack on the camera with camera tray attached before sliding into the camera housing

slide the camera tray into the housing along the tray rail then lock camera tray

4

close the housing gently

plug the power bank with USB Type-C connector into the USB-C bulkhead

OPTIONAL ACCESSORIES

* drawings as illustrations only

Strobe Mounting Ball

Installing M5 Strobe Mounting Ball - **RECOMMENDED**

remove M5 screw with the allen key provided in the housing package

screw #25228 M5 Strobe mounting ball directing onto the M5 thread

** the anti-corrosion screw may also be unscrewed while removing M5 screw, if this is happening, you can separate the parts as shown in the diagram on the left*

Installing M10 Strobe Mounting Ball - Optional

1
remove M5 screw and housing handle screw on the side

2
take out the handle and remove the anti-corrosion screw

3
replace the handle and screw the M10 strobe mounting ball onto the housing as shown

CARE/STORAGE

1

Soak the housing system in fresh water after salt water usage

2

Operate all controls and buttons at least 3 times while immersed in fresh water

3

We recommend cleaning and inspecting the main O-ring each time after diving for any damage and every time the housing is opened.

4

Protect the housing with robust and shock-proof travel case during transportation. Do not travel with camera inside housing.

5

We recommend to ship the housing to our service centers for a complete overhaul after 500 dives/every 3 years.

WARRANTY

All NAUTICAM Housing Products and Viewfinders are warranted against any material and manufacturing defects for two years from the date of purchase for consumer use. NAUTICAM Optical Accessories are warranted against material and manufacturing defects for a period of one year, and HDMI cables carry a year warranty.

This warranty only applies to products purchased from authorized NAUTICAM dealers and does not extend beyond the original retail purchaser.

To return your product for service, please contact your regional authorized service center(s). Please note that this warranty only applies when the product is purchased in the territory where the service center is located.

NAUTICAM accepts no liability for any damage to and defects in the housing caused by improper use and/or poor maintenance; it is the responsibility of the owner to carefully follow the instructions in our manuals.

NAUTICAM does not hold responsibility for damage, of any nature, to any equipment used with and/or placed within our products.

NAUTICAM accepts no liability for any loss of captured images or the inability to capture images even if it is due to the malfunctioning of our products.

Unauthorized modifications and/or repairs of our products will automatically invalidate the warranty.
